Professional Summary

Web Development student with experience in full-stack development using React, Node.js, Express, and SQL. Strong understanding of REST APIs, frontend development, backend services, and cloud platforms including Microsoft Azure and GCP. Seeking a Web Development Internship.

Key Skills: React.js, JavaScript, HTML, CSS, PHP, SQL, REST APIs, MongoDB, AWS, Git, Azure, Supabase

Technical Skills

Frontend: HTML, CSS, JavaScript, React, TypeScript, Tailwind CSS, Bootstrap, Vite

Backend: Node.js, Express, REST APIs

Databases: SQL, Azure SQL, MongoDB

Cloud & Tools: Microsoft Azure, GCP, Git, GitHub, XAMPP, Vercel

Languages: Java, C

Education

B.Tech – Vidyalankar Institute of Technology, Mumbai (2023–2027)

CGPA: **8.65**

HSC – K. J. Somaiya Junior College of Science and Commerce, Mumbai (2021–2023)

Score: **80%**

SSC – Oxford High School, Mumbai (2011–2021)

Score: **92%**

Work Experience (Projects)

Alumni Connect – Full-Stack Web Application

- Developed a full-stack platform supporting **3 user roles** with authentication, profiles, events, and RSVPs.
- Reduced manual coordination by **60%** using automated workflows and email notifications.
- Built REST APIs with Node.js, Express, and Azure SQL handling **100+ user records**.

Property Khareedo – Property Management Platform

- Built a property browsing platform with search, filters, and map-based views, improving discovery by **50%**.
- Implemented authentication, email password reset, and profile management.
- Developed EMI and rent calculators for comparing **multiple property options**.

MindScale – Data Visualization Web App

- Visualized **10 years (2015–2024)** of World Happiness Report data across **150+ countries**.
- Built interactive dashboards showing global trends and factor-based comparisons.
- Implemented a basic prediction model using **4 key indicators**.

Downify – Media Downloading Web App

- Developed a TypeScript/JavaScript web app supporting audio and video downloads.
- Designed responsive UI and multi-source download support.
- Reduced setup time by **40%** with clear deployment documentation.

Certifications

Cloud Computing – CDAC

Covered cloud fundamentals, virtualization, networking, and security.

Hands-on experience with Azure and GCP including VM provisioning, storage, IAM, and deployments.

Learned scalability, availability, cost optimization, and cloud best practices.

Achievements

- Top 11 position at **GDG Hackathon**
- Participant, **Smart India Hackathon (SIH) 2025**
